TRANSPORTATION IMPROVEMENT PROGRAM (TIP)

Annual Listing of Obligated Projects for FFY 2009

Richmond Area MPO

Transportation Improvement Program (TIP) Annual Listing of Obligated Projects

The Annual Listing of Obligated Projects (Annual Listing) includes all projects and strategies listed in the Transportation Improvement Program (TIP) for which federal funds were obligated during the immediately preceding program year. The Annual Listing is intended to improve the transparency of transportation spending decisions by providing an accounting for federal funds that have been authorized and committed by the state or designated recipients (e.g. GRTC Transit System) for expenditure on projects programmed in the TIP.

In addition to the introduction the Annual Listing report includes two parts: *"Part One"* is prepared and submitted by VDOT and VDRPT, and reviewed by the RRPDC; *"Part Two"* is a listing of projects with "programmed" but no actual obligations. "Part Two" of this report should be considered as a supplement to the VDOT information and it should be noted that the VDOT Annual Listing does not include projects listed in the TIP with programmed obligations and no actual obligations during the reporting period (i.e. FFY 2009). As a result, there are a number of projects with programmed obligations in the Richmond Area MPO TIP for FFY09, which the MPO concludes have had zero actual obligations based on the VDOT reporting process.

The tables on the following pages describe the projects included in the TIP, identify the responsible agency, the amount of federal funds requested/obligated, and the amount of funds remaining to be obligated on the project. A "guide sheet" precedes the Annual Listing for the Richmond MPO. This guide and corresponding footnotes are designed to help the reader interpret "Part One" of the Annual Listing report. Should there be any questions regarding the report, please contact the MPO staff at (804) 323.2033 or bnelson@richmondregional.org.

Definitions of Interest

- Program Year: the year in which project obligations are reported; for purposes of this report, the program year is the federal fiscal year from October 1, 2008 through September 30, 2009.
- Obligation: An obligation is the federal government's legal commitment to pay the federal share of a project's cost. An obligated project is one that has been authorized by the federal agency and for which funds have been committed. Projects for which funds have been obligated are not necessarily initiated or completed during the program year, and the amount of the obligation will not necessarily equal the total cost of the project. For projects under the auspices of the Federal Transit Administration (FTA), obligation occurs when the FTA grant is awarded. For projects under the auspices of the Federal Highway Administration (FHWA), obligation occurs when a project agreement is executed and the state/grantee requests that the funds be obligated.

Following the VDOT Annual Listing is a section which includes projects that had programmed obligations for FFY 09 in the Richmond Area MPO Transportation Improvement Program (these projects were not listed in the Annual Listing of Obligations provided by VDOT; therefore these projects had zero obligations for FFY09).

PROJECT OBLIGATIONS

- (1) Planned obligations by fund
- (2) Actual obligations by fund
- (1A) Total **planned** obligations -- Total of (1)
- (2A) Total **actual** obligations -- Total of (2)
- (3) Difference between FFY07 **actual** obligations vs. FFY07 **planned** obligations (Funds Remaining Available for Subsequent Years)
- * indicates no funds remain
- (R) Obligations released from the project.

SYSTEM SUBTOTAL

- (4) Total **planned** obligations by Fund Source by System
- (5) Total **actual** obligations by Fund Source by System
- (4A) Total **planned** obligations for System -- Totals of (4)
- (5A) Total **actual** obligations for System -- Total of (5)
- (6) Difference between FFY07 **actual** obligations vs. FFY07 **planned** obligations (Funds Remaining Available for Subsequent Years)
- * indicates no funds remain

MPO TOTAL

- (7) Total **planned** obligations for MPO by Fund Source for all Systems
- (8) Total **actual** obligations for MPO by Fund Source for all Systems
- (7A) Grand Total of ALL FUND SOURCES **planned** obligations for MPO for all systems
- (8A) Grand Total of ALL FUND SOURCES **actual** obligations for MPO for all systems
- (9) Difference between FFY07 **actual** obligations vs. FFY07 **planned** obligations (Funds Remaining Available for Subsequent Years)
- * indicates no funds remain

Notes:

- A. For projects where obligations identified with no TIP amount identified --
The transaction was a modification and based on the sliding scale, no TIP action was required; and/or AC conversion
- B. For projects where the obligated amount exceeds the TIP amount identified --
Based on the total estimated cost of the project phase vs. the sliding scale, no TIP action was required; and/or AC conversion
- C. By project: Funds indicated w/ () -- release of obligation
- D. Release obligations are not calculated in any totals
